DETAILED ACTION

Response to Amendment

1. The amendment filed on 9 July 2007 has been accepted and entered. The amended abstract has been accepted.

Response to Arguments

2. Applicant's arguments, see amendment filed 9 July 2007, with respect to the rejection of claim 1 have been fully considered and are persuasive. The rejection of claim 1 and subsequent dependent claims has been withdrawn. In view of the amendment, the rejection of claims 8 and 11 under 35 USC 112, second paragraph, has been withdrawn.

Allowable Subject Matter

3. Claims 1-16 are allowed.
4. The following is an examiner's statement of reasons for allowance:

With respect to claim 1, this claim is allowable for reasons as set forth by the applicant in the communication filed on 9 July 2007, with specific reference to the necessity and advantages of the claimed configuration of the drive current and signal circuits such that the behavior of the amplifier in the present invention can be kept in a stable state, which would not have been obvious to one of ordinary skill in the art at the time the invention was made.

With respect to claim 7, this claim has been rewritten in independent form including the allowable subject matter as set forth by the examiner in the communication mailed on 9 February 2007 and is thus now allowable.

Claims 2-6 and 8-16 are allowable for reasons of dependency upon independent claims 1 and 7, as addressed above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
